

NexaTech Solutions - Data Privacy Policy

Policy ID: IT-PRIV-018

This policy establishes requirements for protecting personal and confidential information handled by employees.

1. Personal Information

Employees must handle personal information only for legitimate business purposes and according to company procedures.

2. Access Control

Access to confidential and personal information must be limited to employees who require it for their assigned responsibilities.

3. Data Sharing

Employees must not share confidential or personal information with unauthorized individuals or external parties.

4. Data Storage

Company information must be stored using approved company systems and authorized storage locations.

5. Privacy Incidents

Suspected unauthorized disclosure, loss, or misuse of personal information must be reported to the appropriate security team.
